

The **Associate of Science (A.S.) in Business Administration** degree is for students who wish to transfer to four-year academic institutions and the curriculum is designed to introduce students to the various aspects of the free enterprise system. Students are provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's competitive global economy.

Course work includes business concepts such as accounting, economics, finance, information systems, the legal environment, management and marketing. Graduates can also find entry level employment opportunities in government agencies, financial institutions, or business organizations in a variety of industries. *This program is available 100% online.*
